Summer placement training program for students of the 2nd year at the Faculty of Medicine, Division of Dentistry, of the Medical University of Lodz

I. Summer placement training organization

1. Summer placement training is obligatory and lasts for 4 weeks - the total number of hours -120.
2. Students should participate in six-hour duties on all shifts.
3. Placement training must be conducted according to the program.
 - 2 weeks of dental surgery assistance
 - 2 weeks of dental surgery practice
4. Placement training must be credited with a grade.
5. **The course credit with a grade, confirmed by the head of the clinic or other authorized person, will be recorded in the SUMMER TRAINING CHART on the basis of the student's attendance and skills acquired.**
6. The final assessment of the summer placement training is performed by the Vice-Dean for Studies in English.
7. The supervisor may consent to the student's placement in health care institution selected by the student if the nature of the work performed by the student is consistent with the summer placement training program.
8. Student absence during the program may only be justified by a medical certificate. Illness longer than 3 days will result in the program being extended by an appropriate period.
9. Upon the completion of the training, the Student's Summer Training Chart must be sent by the Clinic/Hospital Department providing the training directly to the Medical University of Lodz to the following address:

**Uniwersytet Medyczny w Łodzi
Administrative Center for Studies in English
Plac Hallera 1
90-647 Łódź
Poland**
